INTRODUCTION

On the 74 rolls of this microfilm publication are reproduced the compiled records that give histories of Confederate military units. The compiled records consist of jacket-envelopes bearing the names of the units and titled "Captions and Record of Events." These jacket-envelopes typically contain (1) caption cards showing the exact captions of the muster rolls as copied and the certificate of the mustering officer verifying the accuracy of the rolls; and (2) record-of-events cards containing information relating to the stations, movements or activities of each unit or a part of it, and sometimes to its organization or composition, strength and losses, and disbandment. The amount of information contained on a card varies. Some include only date and name of station of the unit. Others give detailed accounts of the unit's operations and activities. These compiled records are part of the War Department Collection of Confederate Records, Record Group 109.

Because some records of the Confederate Army were lost or destroyed during the war and at its close, the compiled military histories of most units are incomplete. There are no record-of-events cards for a small number of State units that were mustered into Confederate service and for militia units that were never mustered into service.

The compilation of records showing service of Confederate military units was undertaken simultaneously with compilation of service records of Confederate soldiers. The work was begun in 1903 under the direction of Brig. Gen. Fred C. Ainsworth, head of the Record and Pension Office in the War Department. Abstracts were made from documents in the War Department's collection of Confederate records and from documents borrowed mostly from Southern States by the War Department in an effort to obtain as complete military histories of units as possible. The original muster rolls and returns were the principal sources of information abstracted on the caption cards and lists of officers envelopes, but rosters, payrolls, hospital registers, casualty lists, Union prison registers, casualty lists, Union prison registers and rolls, parole rolls, and inspection reports were also examined for this purpose. Abstracts were verified by separate comparison, and every precaution was taken to ensure their accuracy.

Some of the jacket-envelopes, particularly those titled "Captions," "Rolls," "Instructions," or "Information," do not contain card abstracts, but do contain information cards that serve as cross-references to records filed with other units. On the front of each jacket-envelope is a series of numbers that corresponds to the number on the back of each card in the jacket. The reverse side, which contains a number and a date stamp, was

not filmed unless it contained additional information. The numbers and dates were stamped on the cards for control purposes at the time the compiled records were prepared. Later, notations were made on some jackets to indicate that clothing rolls of the units were extant. Card abstracts were prepared from information on these rolls and filed with compiled records of individual soldiers but not in the jacket-envelopes reproduced on this microfilm publication.

Preceding the jacket-envelopes of most units are empty envelopes on which are listed the names of officers of the unit or, occasionally, only the name of the commanding officer. The letter "C" and the numbers "1" and "2," which follow names of officers, indicate the grades of captain, first lieutenant, and second lieutenant, respectively. The lists often include dates on which units were called into service and mustered out; dates of deaths, promotions, resignations, or retirements of officers; and information relating to consolidations, transfers, disbandments, or other changes in the organization of units. A stamp reading "All rolls filed herewith" appears on some of the lists, but no rolls are now filed with the lists. Similarly, the notation "For references see inside," which appears on some lists, should be disregarded as there are now no reference sheets in the envelopes.

Lists of officers were prepared for many State militia units that were not mustered into service and for other organizations for which no rolls were found. These lists are filed under "Miscellaneous" and appear at the end of records of State units and at the end of records of units raised directly by the Confederacy. With a few exceptions no lists were prepared for units from North Carolina.

Most of the compiled records reproduced in this microfilm publication are arranged alphabetically by State, thereunder by type of unit (cavalry, artillery, and infantry), followed by reserve, militia, local defense, conscript, prison guard, instruction, or other organizations. The table of contents was prepared from caption cards; the information in parentheses or brackets consists of other names by which units were known and related information. The arrangement of compiled records for units raised directly or otherwise formed by the Confederate government is similar except that the latter units are not broken down by State.

The National Archives has compiled records of Confederate soldiers who served in units whose histories are reproduced in this microfilm publication. There are also card indexes to help locate the compiled service records of Confederate soldiers. All the records and the related indexes have been microfilmed.

The archivist responsible for the preparation of this microfilm publication is Geraldine N. Phillips.

NOTES ON ROLL 19

A typed copy of a portion of a letter written about 1908 with an enclosure has been filmed immediately after the record-of-events jacket and cards for Whiteside's Naval Battalion, Infantry (Local Defense). The letter, addressed to the Commissioner of Pensions at Atlanta, Ga., by four surviving members of the battalion, gives an account of some of the unit's activities. The enclosure is a brief excerpt from "The Siege of Savannah" by Lt. Col. C. C. Jones, Jr.

Roster

of the organization named above,

dated Near Tupelo, Miss. Jany. 17, 1865.

REMARKS.

In absence of the records of this Regt. it is impossible to give a correct military history of the Regt. of appointments, promotions &c. of the Officers whose names appear on this roster.

Col. D. P. Smith procured authority from the War Dept. to raise a Regt. of Infantry and Cavalry, known as the 65th Regt. of Ga. Militia, and began recruiting in Walker & adjoining counties in Nov. 1863, and organized on the 1st day of July, 1864, at Dalton, Ga. Companies were subsequently added, and the Regt. was reorganized on the 1st day of Jan. 1865, at Tupelo, Miss. which time the following roster was arranged. Col. D. P. Smith was promoted to Brig. Gen. on the 1st day of March 1865, at which time Lt. Col. Connolly Watt was promoted to Col. of Regt. The remaining officers on the roster remain as they were on the 1st day of Jan. 1865.

RECORD OF EVENTS.

I have been advised that some ten or twelve persons on this Roll - having certificates of disability and who volunteered on the 4th of August as indicated - have since been conscripted, not knowing their names and the exact number I was not left at liberty to strike their names from the Roll. I have been also informed that some three or four names were put on the list by mistake; there I did not feel at liberty to strike from the Roll until better advised.

Those marked with a cross mark Thus (X) gave notice of return in, & have delayed in making return of the Roll.

The undersigned, former members of Naval Battalion , C. .., [illegible] of the sad news of the passing of their aged comrade and fellow-[illegible]. John . Gifford, as well as such other members of our former command as may [illegible] when the heavy hand of poverty may be [illegible], beg leave to acquaint you with the following facts relative to our former organization:

It was formed in the early sixties at Columbus, Ga., and [illegible] into the service of the Confederate States, thereby [illegible] subject to the order the Confederate authorities [illegible] for its employment ashore or afloat. (See Vol. 33, Series I, page. . . for reports . It was, in the main, composed of [illegible] as soldiers but the mechanical equipment of many of the [illegible] vessels of war was also made possible by their efforts, directed by the eminent Chief Engineer J. H. Warner, C. . [illegible]. This technical quality of the battalion was so well recognized here in the navy that the most dire necessity existed for [illegible] except into field service was its energies directed from the manufactory of cannon, the construction of gunboats and the [illegible] of machinery for their propulsion, as well as the general [illegible] of the vessels of war by the Confederacy. Still, [illegible] it was to the orders of the Government (See Vol. 32, [illegible], [illegible], [illegible], the section will show when 1,2[illegible] men were [illegible] transferred from the navy to the several Naval stations of [illegible], Ga., included. hen Columbus and the [illegible] territory was threatened by Federal invasion under Gen- [illegible], the battalion promptly responded to a call to the [illegible], where it performed to do its full duty. Later, [illegible] had been captured and General Hoxman was moving his [illegible], the urgency of the situation caused those in [illegible] the battalion again for field service. Re- [illegible] the battalion was ordered to Savannah to assist [illegible], Georgia. There and then before the Union Army [illegible] of retarding its advance on the firing line. [illegible] some of the brave comrades of the Battalion had [illegible] that our officers allowed us to retire with-

in the fortifications of the besieged city. The works occupied by our Command were so close to the enemy as to provoke an almost incessant and deadly rifle and artillery fire, which honor and duty obliged us to sustain, until the evacuation of Savannah, Ga., forced us to pass through the merciless shelling of Gen. Foster's batteries into South Carolina with the expectation of reinforcing the command of General Joseph E. Johnston. Nevertheless, at this time, deterred the unique fact that our Battalion, even at this critical point, was, by direct order of President Jefferson Davis, sent back to its station at Columbus, Ga. (See Vol. 44, Series I,), thus emphasizing the fact of its members' worth in their original assignment on account of their technical superiority. This order, however, had the effect of shortening their period of field service in this campaign but later, April 16, 1865, when the [illegible] the capture of Columbus, Ga., by General J. H. Wilson, U. S. Army, occurred, the Battalion was again in the front engaged in the unavailing defense of that city.

Permit us to say that we believe from the foregoing recital, the correctness of which we certify to, that our comrade, James A. Gifford, he was an active member of Co. C, now a physical wreck, deserves at the hands of our great State, in which he has lived for forty years, recognition of his application for a pension.

Respectfully submitted,

(Signed) C. C. McGehee,
J. M. Alexander,
W. H. Perrine,
J. A. Corbally,
